I. INTRODUCTION AND INTERVIEWER INSTRUCTIONS

1.1 Project Scenario

TechVision Consulting Inc. has been hired by Manila Manufacturing Corp. (MMC), a medium-sized consumer goods manufacturer. MMC aims to adopt emerging technologies to modernize its operations, improve efficiency, and remain competitive. However, the company is uncertain about which technologies to adopt and how to implement them.

This interview guide will be used to interview key stakeholders at MMC. The information gathered will help assess the company's current state, technology awareness, readiness, challenges, available skills, budget considerations, and ability to implement emerging technologies. The interview results will form the basis of a technology adoption recommendation report.

1.2 Purpose of the Interview

The interview aims to:

- Understand MMC's current operations and technology use.
- Identify the company's current technological challenges.
- Assess MMC's awareness of emerging technologies.
- Evaluate the company's readiness to adopt new technologies.
- Identify potential applications of AI, machine learning, AR, IoT, cloud computing, and big data.
- Determine the skills and training employees need.
- Understand budget and implementation considerations.
- Identify potential risks and challenges during technology adoption.
- Determine which technologies may provide the greatest benefit to MMC.

1.3 Interviewer Instructions

Before beginning the interview, the interviewer should:

1. Introduce themselves and explain the purpose of the interview.
2. Explain that the interview focuses on MMC's current operations and readiness to adopt emerging technologies.
3. Ask the questions clearly and in the order provided.
4. Allow the interviewee enough time to explain their answers.
5. Use the follow-up questions when an answer needs clarification or additional information.
6. Avoid suggesting answers
7. Maintain professionalism throughout the interview.
8. Ask permission before recording the interview if audio or video recording will be used.
9. Thank the interviewee after completing the interview.

II. INTERVIEWEE INFORMATION

Interviewee Name: _____

Position/Role: _____

Department: _____

Years with MMC: _____

Date of Interview: _____

Time: _____

Interviewer: Mary Anne P. Racelis

Location/Platform: _____

Stakeholder Type

☐ Management

☐ Production

☐ Operations

☐ Information Technology

☐ Finance

☐ Other: _____

III. BACKGROUND AND CURRENT STATE

Question 1

Can you briefly describe MMC's main operations and the activities that are most important to producing its consumer goods?

Notes/Response: _____

Question 2

What technologies or computer-based systems does MMC currently use in its daily operations?

Follow-up: What are these technologies mainly used for?

Notes/Response: _____

Question 3

Does MMC currently use digital systems to support production or operational activities?

☐ Yes

☐ No

☐ Partially

☐ Not sure

If yes, please specify: _____

Question 4

What are the biggest problems or difficulties that MMC currently experiences in its operations?

Follow-up: Which problem occurs most frequently, and how does it affect productivity?

Notes/Response: _____

Question 5

Which current processes do you think could be improved through better use of technology? Why?

Notes/Response: _____

Question 6

Does MMC currently collect production, operational, or customer-related data?

☐ Yes

☐ No

☐ Not sure

If yes, what type of data is collected? _____

IV. TECHNOLOGY AWARENESS AND READINESS

Question 7

Before this interview, were you familiar with the term “emerging technologies”?

☐ Yes

☐ No

☐ Somewhat

Question 8

What emerging technologies are you currently aware of, and what do you understand about their possible uses?

Follow-up: Where did you learn about these technologies?

Notes/Response: _____

Question 9

How would you describe MMC's current readiness to adopt emerging technologies?

☐ Very ready

☐ Ready

☐ Somewhat ready

☐ Not ready

☐ Unsure

Why did you choose this answer? _____

Question 10

What would MMC need to improve or prepare before adopting an emerging technology?

Follow-up: Would the company need new equipment, employee training, or changes to existing systems?

Notes/response: _____

Question 11

Does MMC currently have personnel with the technical skills needed to support new technologies?

☐ Yes

☐ No

☐ Partially

☐ Not sure

Please explain: _____

Question 12

What concerns would MMC management have before approving the adoption of an emerging technology?

Follow-up: Would cost, employee skills, implementation difficulty, or possible effects on operations be major concerns?

Notes/Response: _____

V. INDUSTRY AND COMPETITIVE ANALYSIS

Question 13

How important is technology to MMC's ability to remain competitive in the consumer goods industry?

Follow-up: Why is technology important to the company's competitiveness?

Notes/Response: _____

Question 14

What improvements would MMC hope to achieve by adopting emerging technologies?

Follow-up: Would the company prioritize efficiency, productivity, decision-making, or better use of information?

Notes/Response: _____

Question 15

Do you believe MMC's competitors are using newer technologies that could give them an advantage?

☐ Yes

☐ No

☐ Not sure

If yes, please explain: _____

Question 16

What technological advantage would you want MMC to develop over its competitors?

Notes/Response: _____

VI. SPECIFIC TECHNOLOGY AREAS

This section focuses on six emerging technologies discussed in Module 1: Artificial Intelligence, Machine Learning, Augmented Reality, Internet of Things, Cloud Computing, and Big Data Analytics.

6.1 Artificial Intelligence (AI)

Question 17

Is MMC currently using any form of Artificial Intelligence in its operations?

☐ Yes

☐ No

☐ Not sure

If yes, what is it used for? _____

Question 18

What tasks or processes at MMC do you think could benefit from Artificial Intelligence?

Follow-up: What problem could AI help solve?

Notes/Response: _____

Question 19

What benefits would MMC expect from using Artificial Intelligence in its operations?

Follow-up: How could AI improve the way employees or departments perform their tasks?

Notes/Response: _____

6.2 Machine Learning

Question 20

Are you familiar with Machine Learning as an application of Artificial Intelligence?

☐ Yes

☐ No

☐ Somewhat

Question 21

How could MMC potentially use systems that learn from operational experience or available data?

Follow-up: What information could such a system learn from, and what decisions could it support?

Notes/Response: _____

6.3 Augmented Reality (AR)

Question 22

Do you think Augmented Reality could be useful in MMC's operations?

☐ Yes

☐ No

☐ Maybe

☐ Not sure

Question 23

Where could Augmented Reality be useful in MMC's workplace?

Follow-up: Could it help workers receive instructions, identify parts, or access real-time information?

Notes/Response: _____

6.4 Internet of Things (IoT)

Question 24

Does MMC currently use connected sensors or devices that communicate with other systems?

- ☐ Yes
- ☐ No
- ☐ Partially
- ☐ Not sure

Question 25

What equipment or processes at MMC could benefit from being connected and monitored through IoT?

Follow-up: What information would you want to receive from connected devices?

Notes/Response: _____

Question 26

How could real-time information from connected devices help MMC's employees or management?

Notes/Response: _____

6.5 Cloud Computing

Question 27

Does MMC currently use cloud-based services for storing or accessing data and systems?

- ☐ Yes
- ☐ No
- ☐ Partially
- ☐ Not sure

Question 28

What company information or services could benefit from being accessible through cloud computing?

Follow-up: Who would need access to this information, and how could it improve operations?

Notes/Response: _____

6.6 Big Data Analytics

Question 29

Does MMC currently analyze large amounts of operational or production data to identify patterns or useful information?

- ☐ Yes
- ☐ No
- ☐ Partially
- ☐ Not sure

Question 30

What types of data would be most useful for MMC to analyze when making production or management decisions?

Follow-up: Would production, customer, equipment, or operational data be useful?

Notes/Response: _____

Question 31

How could Big Data Analytics improve the way MMC makes decisions?

Notes/Response: _____

VII. SKILLS AND CAPACITY

Question 32

Does MMC have employees who can operate and support newly implemented technologies?

- ☐ Yes
- ☐ No
- ☐ Partially
- ☐ Not sure

Question 33

What technical skills would employees need to develop before MMC could successfully adopt emerging technologies?

Follow-up: What skills are currently missing?

Notes/Response: _____

Question 34

What type of training or support would employees need when a new technology is introduced?

Notes/Response: _____

Question 35

Would MMC be willing to provide training for employees who need to learn new technologies?

☐ Yes

☐ No

☐ Maybe

☐ Depends on the cost

Please explain: _____

Question 36

What challenges do you expect employees to experience when adjusting to new technology?

Follow-up: Could lack of technical knowledge, difficulty adapting, training time, or resistance to change be concerns?

Notes/Response: _____

VII. BUDGET AND IMPLEMENTATION

Question 37

Has MMC already allocated a budget for technology modernization or digital transformation?

☐ Yes

☐ No

☐ Planning to

☐ Not sure

Question 38

What factors would MMC consider when deciding how much to invest in an emerging technology?

Follow-up: Would equipment, training, maintenance, implementation time, or expected benefits affect the decision?

Notes/Response: _____

Question 39

Would MMC prefer to implement a new technology gradually through a pilot project before expanding it throughout the company?

☐ Yes

☐ No

☐ Maybe

☐ Not sure

Why? _____

Question 40

What would MMC consider a successful result after implementing an emerging technology?

Follow-up: Would increased efficiency, reduced problems, better decision-making, faster production, or improved use of data be indicators of success?

Notes/Response: _____

Question 41

What risks or difficulties should be considered before implementing an emerging technology at MMC?

Follow-up: Could technical problems, employee readiness, cost, uncertain results, or changes to existing processes be concerns?

Notes/Response: _____

IX. CLOSING

Question 44

Is there any technology-related problem at MMC that we have not discussed but you believe should be considered?

Notes/Response: _____

Question 45

Is there anything else you would like to share about MMC's plans, concerns, or expectations regarding emerging technologies?

Notes/Response: _____

Closing Statement

Thank you very much. I really appreciate you taking the time to participate in this interview. Your responses will help us understand MMC's current technological situation, readiness, challenges, and priorities regarding emerging technologies.

The information gathered from this interview will be used as a basis for preparing a technology adoption recommendation report for Manila Manufacturing Corp.

X. INTERVIEW SUMMARY

Current State

Key technologies currently used by MMC: _____

Main Operational Problems: _____

Technology Awareness

- ☐ High
- ☐ Moderate
- ☐ Low
- ☐ Uncertain

Comments: _____

Technology Awareness

- ☐ High
- ☐ Moderate
- ☐ Low
- ☐ Uncertain

Reason: _____

Most Promising Technology

Reason for Selection

Main Skills and Training Needs

Main Budget Considerations

Main Implementation Concerns

Recommended Technology Priority

XIII. RUBRIC FOR EVALUATION

Criteria	Excellent	Good	Satisfactory	Needs Improvement	Score
Completeness of Sections	All 9 sections complete and well-organized	7-8 sections complete	5-6 sections complete	Less than 5 sections	/15
Question Quality	Questions are clear, relevant, and probing	Most questions clear and relevant	Some questions unclear or irrelevant	Many questions unclear or irrelevant	/15

Coverage of Technologies	ALL emerging technologies covered thoroughly	Most technologies covered	Some technologies covered	Few technologies covered	/25
Alignment with Scenario	Questions perfectly match the MMC scenario	Questions mostly match the scenario	Some questions match the scenario	Questions do not match the scenario	/10
Open-Ended Questions	Excellent mix with effective probes	Good mix with some probes	Some open-ended questions	Few open-ended questions	/10
Professional Format	Very professional, clean, and organized	Professional with minor issues	Somewhat professional	Disorganized or messy	/15
Practicality	Questions are practical and usable	Most questions are practical	Some questions are practical	Questions are impractical	/10

TOTAL SCORE: ____ / 100
